Bangalore.

GENERAL & PUBLIC SECTT. 11614 13 AUG. 1925 LOCAL SELF GOVT. BRANCH

To

The Secretary to the Government of
His Highness the Maharajaof Mysore,
Local and Legislative Departments, Bangalore.

Med 126-23-6

Sir,

With reference to your letter No. L. 8918-Med. 126-23-2, dated 14th May 1924, requiring detailed information on certain points connected with Vaidyasalas and Davakhanas in the State, I have the honor to forward herewith, a statement showing the names of the institutions the places where they are working, the date of opening of each (as far as it is ascertainable), the details of cost and the monthly grant-in-aid received and the number of patients treated in each during the year 1923. The total number of institutions working at the end of the year was 109.

Charge.- The Vaidyans or Hakims in charge of these institutions are, in the majority of cases, following the practice of the Ayurvedic or Yunani system of medicine as a hereditary profession, and do not hold any certificate or diploma of having undergone regular training and passed any recognised examination. Some institutions are presided over by Pandits who passed out of the Ayurvedic College, Mysore, and Hakims trained at the Tibbi College, Delhi. Most of the dispensaries are held in the houses of the Vaidyans or Hakims.

Control.- The institutions are subject to the control of the Local Boards from whom they receive grant-in-aid. But the control does not seem to go beyond requiring the Pandit or Hakim to periodically submit his grant-in-aid bill to the Board concerned. In the absence of the system of preparation and submission of periodical returns, statistical information is not easily available to the Senior Surgeon. Information

Information as it is required, has to be obtained through the District Board.

Working.- There are no fixed rules governing the hours of attendance, the maintenance of registers and accounts, etc., except in a few institutions situated in the Bangalore and Mysore Cities. But the physician will be available without restricton of time, whenever he is at home. Only out-patients are attended to.

Finance.- The institutions continue to be worked in the primitive idea that medical relief is a work of charity and ought to be given free. Hence the Vaidyan or Hakim does not charge fees or expect any payment from patients, attending the dispensary. The income is limited to the grant-in-aid, which is meant to compensate the Vaidyan or Hakim for his out-of-pocket expenses in purchasing Bazaar medicines and for his trouble, to some extent, in preparing the medicines. In the few cases where assistants and menials are employed, the details are shown in Col.5 of the statement. The Vaidyan or Hakim is free to incur necessary expenditure, but he cannot claim any thing beyond the grant-in-aid.

Statistics.- In the absence of rules governing the working of these institutions (as in the case of Local Fund Dispensaries) the registration of the patients attending daily is defective. The figures shown in the column "total number of patients treated" in institutions Nos. 1 to 7 of the Bangalore City and Nos.50 to 63 of the Mysore City, represent, presumably, the total attendance (old and new) patients during the year, as distinguished from the number of patients (new) treated.

General.- The Indigenous Hospital,Mysore, is an institution where the Ayurvedic and the Yunani Systems are practiced side by side. Its cost is met, one-third by the Mysore City Municipality and two-thirds from State Funds. Very recently, a combined Ayurvedic and Yunani Dispensary has been opened at Shimoga at a recurring cost of Rs.192 per mensem, paid from the Grant made by Government for the improvement of the Malnad. As this

As this institution was opened only in January 1925 it has not been included in the statement.

I have the honour to be,

Sir,

Your most obedient servant,

Senior Surgeon.
